## Measurement results of the main luminous parameters

| Luminous<br>flux | Input<br>power | Luminous<br>efficacy | LOR     | DWFF    | Luminous<br>intensity |
|------------------|----------------|----------------------|---------|---------|-----------------------|
|                  |                |                      |         |         | (g=0)                 |
| 548.0 lm         | 23.30 W        | 23.5 lm/W            | 100.0 % | 100.0 % | 1227 cd               |

Beam widths at two perpendicular planes

|         | e ,  | Beam angle, 10%<br>(deg) | Effective beam<br>direction from<br>g=0 |
|---------|------|--------------------------|---|
| C0-180  | 31.9 | 69.3                     | -0.0                                    |
| C90-270 | 32.1 | 69.2                     | 0.0                                     |

Energy class is calculated on the basis of the light distribution and luminous efficacy according to Annex VII of Regulation (EU) No 874/2012

| Energy Efficiency Index EEI | Energy Efficiency Class |
|-----------------------------|-------------------------|
| 0.498                       | В                       |
